

How To Access Lab Leaner?

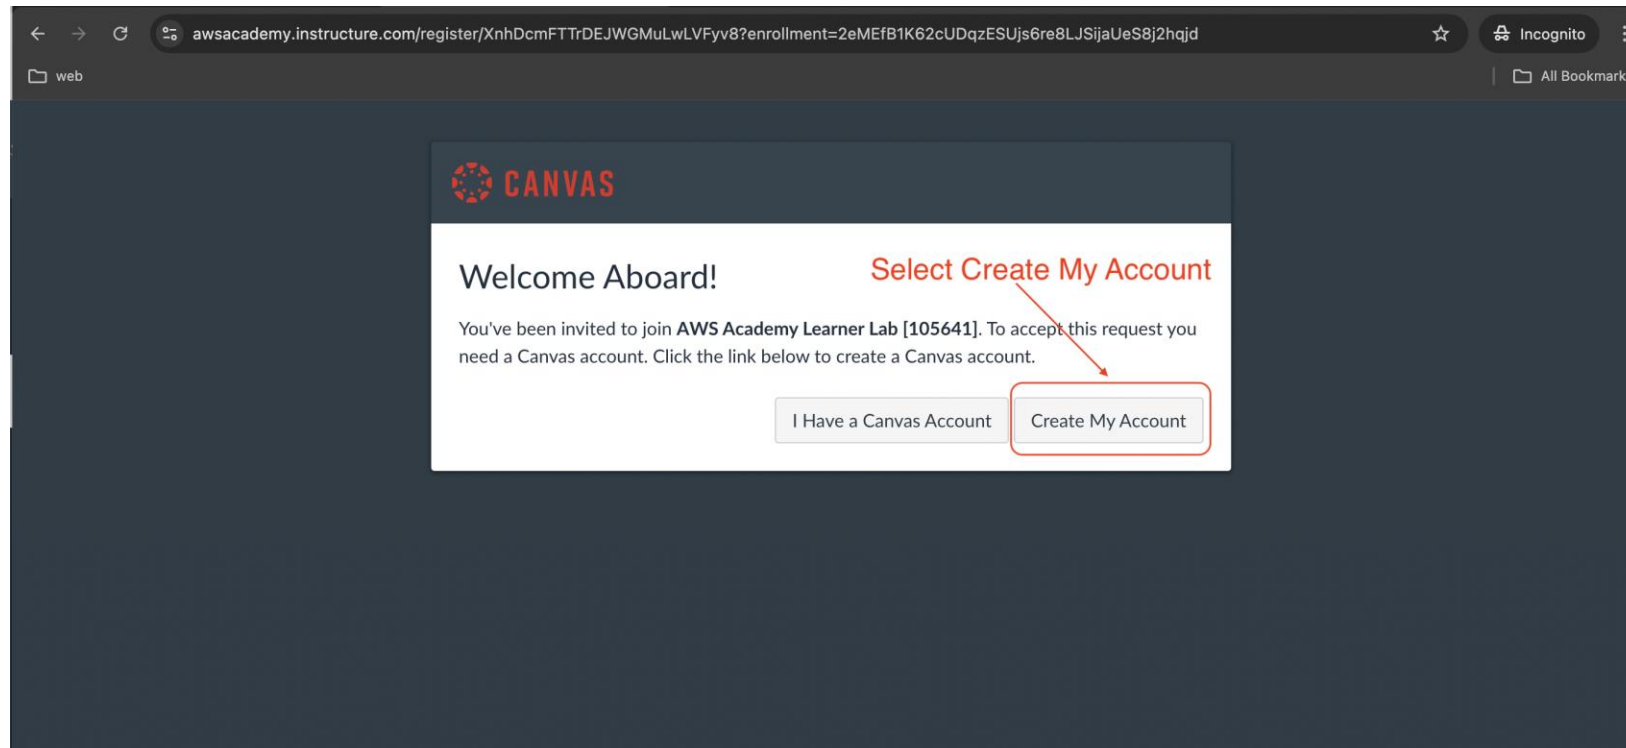

03/01/2025

Hai Tran

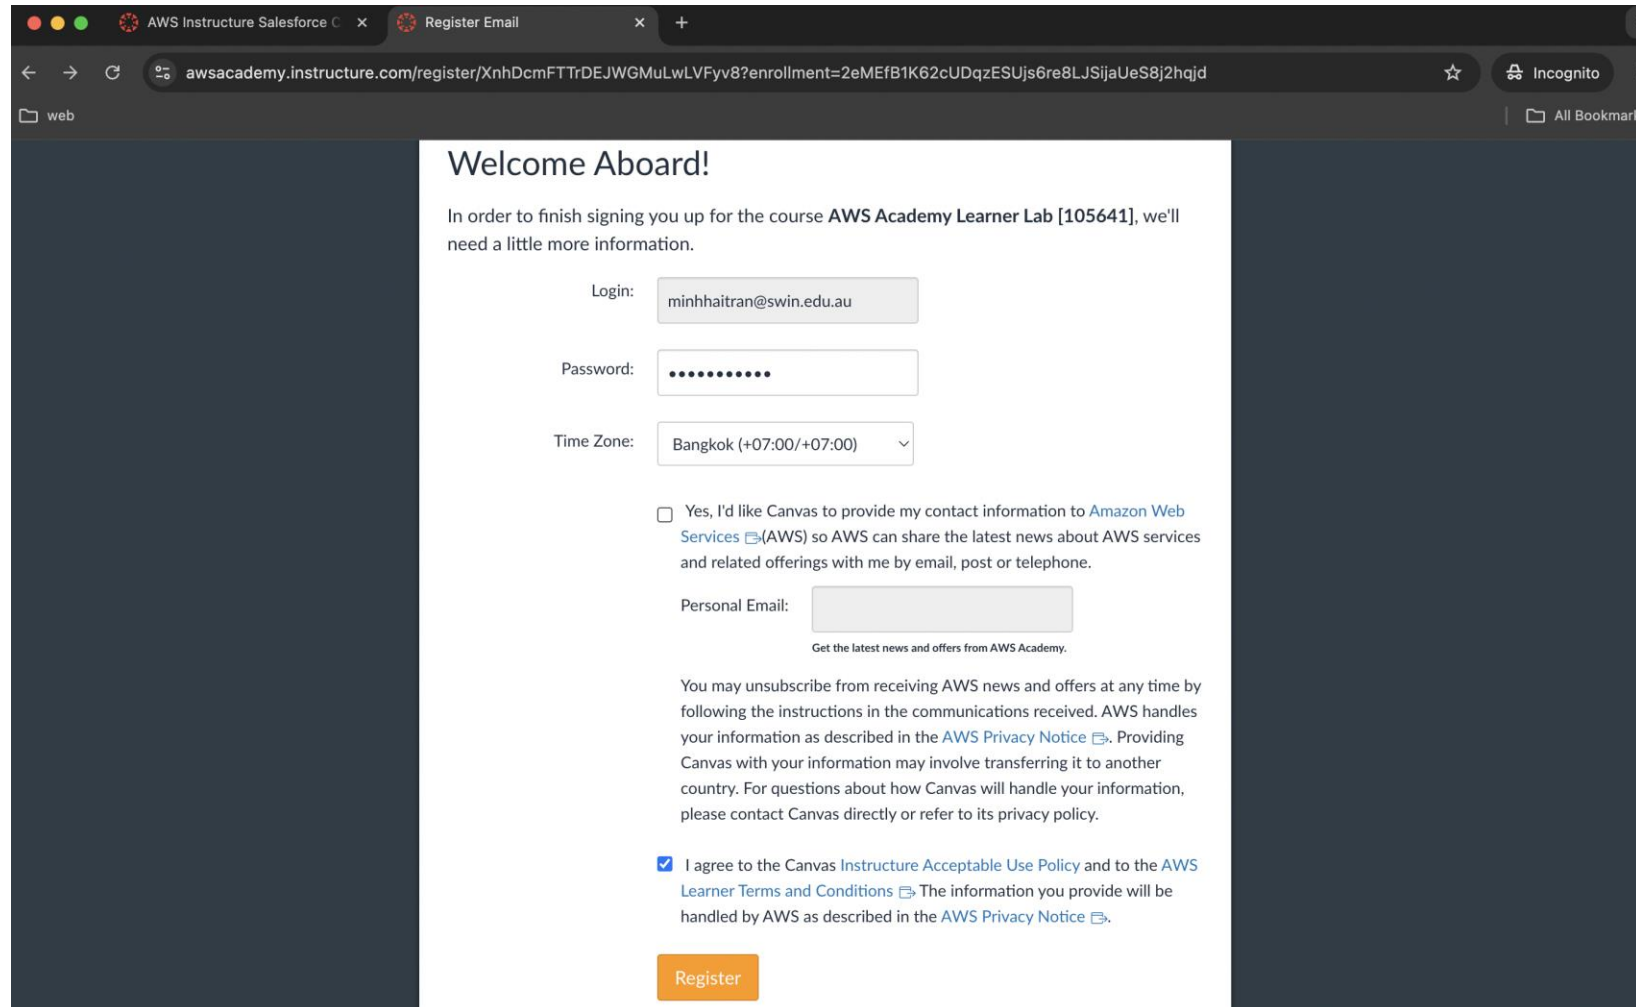

Step 1. Course Invitation Email- Please check your@swin.edu.au

Step 2. Create a Canvas Account

Step 3. Register a Canvas Account

The screenshot shows a web browser window with two tabs: "AWS Instructure Salesforce C" and "Register Email". The address bar shows the URL: `awsacademy.instructure.com/register/XnhDcmFTTrDEJWGMuLwLVFyv8?enrollment=2eMEfB1K62cUDqzESUjs6re8LJSijaUeS8j2hqjd`. The browser is in Incognito mode. The page content is titled "Welcome Aboard!" and explains that more information is needed to finish signing up for the "AWS Academy Learner Lab [105641]".

Registration fields:

- Login: `minhhaitran@swin.edu.au`
- Password: `.....`
- Time Zone: `Bangkok (+07:00/+07:00)`

Consent section:

☐ Yes, I'd like Canvas to provide my contact information to [Amazon Web Services](#) (AWS) so AWS can share the latest news about AWS services and related offerings with me by email, post or telephone.

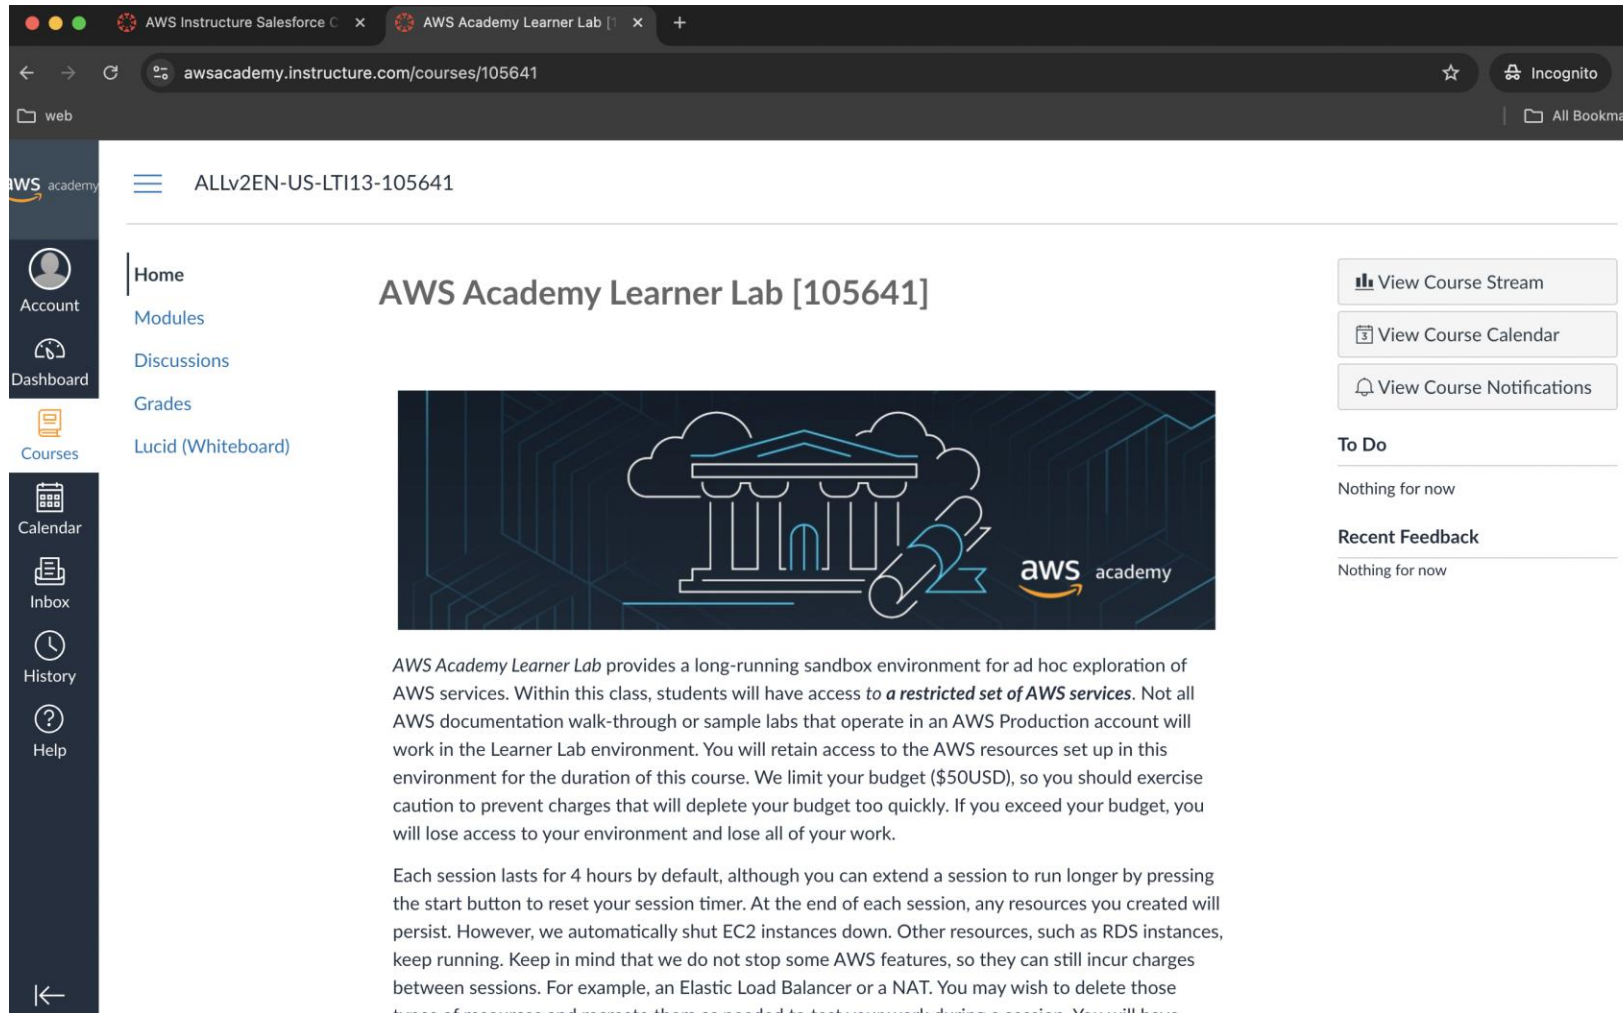

Personal Email:

Get the latest news and offers from AWS Academy.

You may unsubscribe from receiving AWS news and offers at any time by following the instructions in the communications received. AWS handles your information as described in the [AWS Privacy Notice](#). Providing Canvas with your information may involve transferring it to another country. For questions about how Canvas will handle your information, please contact Canvas directly or refer to its privacy policy.

☒ I agree to the Canvas [Instructure Acceptable Use Policy](#) and to the [AWS Learner Terms and Conditions](#). The information you provide will be handled by AWS as described in the [AWS Privacy Notice](#).

Step 4. Login in AWS Academy – Lab Learner

The screenshot shows a web browser window with the URL `awsacademy.instructure.com/courses/105641`. The page title is "AWS Academy Learner Lab [105641]". The left sidebar contains navigation links: Account, Dashboard, Courses, Calendar, Inbox, History, and Help. The main content area features a header "AWS Academy Learner Lab [105641]" and a large banner image of a classical building with columns and a cloud. Below the banner, the text describes the lab environment: "AWS Academy Learner Lab provides a long-running sandbox environment for ad hoc exploration of AWS services. Within this class, students will have access to a **restricted set of AWS services**. Not all AWS documentation walk-through or sample labs that operate in an AWS Production account will work in the Learner Lab environment. You will retain access to the AWS resources set up in this environment for the duration of this course. We limit your budget (\$50USD), so you should exercise caution to prevent charges that will deplete your budget too quickly. If you exceed your budget, you will lose access to your environment and lose all of your work."

Each session lasts for 4 hours by default, although you can extend a session to run longer by pressing the start button to reset your session timer. At the end of each session, any resources you created will persist. However, we automatically shut EC2 instances down. Other resources, such as RDS instances, keep running. Keep in mind that we do not stop some AWS features, so they can still incur charges between sessions. For example, an Elastic Load Balancer or a NAT. You may wish to delete those types of resources and recreate them as needed to test your work during a session. You will have

On the right side, there are three buttons: "View Course Stream", "View Course Calendar", and "View Course Notifications". Below these are sections for "To Do" (Nothing for now) and "Recent Feedback" (Nothing for now).

Step 6. Student Guide

The screenshot shows a web browser window with the URL `awsacademy.instructure.com/courses/105641/modules/items/9867936`. The browser's address bar and tabs are visible at the top. Below the browser window, the AWS Academy interface is displayed. On the left is a dark sidebar with navigation icons for Account, Dashboard, Courses, Calendar, Inbox, History, Help (with a notification badge), and a back arrow. The main content area has a breadcrumb trail: `ALLv2EN-... > Modules > Course W...` followed by `> AWS Academy Learner Lab Student Guide`. A left-hand menu lists various sections: Home, Announcements, Modules (highlighted), Discussions, Grades, Pages, Assignments, People, Rubrics, Quizzes, Syllabus, Files, Outcomes, BigBlueButton, Collaborations, Add Learners, Lucid (Whiteboard), and Settings. The central content area is titled `ALLv1 EN-US SG M00 Student Guide` and contains the heading `AWS Academy Learner Lab Student Guide` with a `CONFIDENTIAL – DO NOT DISTRIBUTE` warning. Below this is a `Table of contents` listing sections and their page numbers: Introduction (1), Setting up and logging in to your AWS Academy account (1), Accessing an AWS Academy Learner Lab (2), Using a Learner Lab (4), How to effectively use the Academy Learner Labs (7), and Need help? (9). At the bottom of the content area are `Previous` and `Next` navigation buttons.

Step 7. Select Modules

The screenshot shows the AWS Academy Learner Lab interface for course ID 105641. The browser address bar displays `awsacademy.instructure.com/courses/105641`. The interface includes a left sidebar with navigation links: Account, Dashboard, Courses, Calendar, Inbox, History, and Help. The main content area is titled "AWS Academy Learner Lab [105641]" and features a "Select Modules" button. Below this, there is a large graphic of a classical building with columns and a cloud, with the AWS Academy logo. The text describes the lab as a long-running sandbox environment for exploring AWS services, noting that it provides access to a restricted set of AWS services and has a \$50USD budget limit. It also mentions that sessions last for 4 hours by default and that resources created will persist. At the bottom, there is a status bar indicating the user is logged into Student View, with buttons for "Reset Student" and "Leave Student View".

aws academy

AWS Academy Learner Lab provides a long-running sandbox environment for ad hoc exploration of AWS services. Within this class, students will have access to a **restricted set of AWS services**. Not all AWS documentation walk-through or sample labs that operate in an AWS Production account will work in the Learner Lab environment. You will retain access to the AWS resources set up in this environment for the duration of this course. We limit your budget (\$50USD), so you should exercise caution to prevent charges that will deplete your budget too quickly. If you exceed your budget, you will lose access to your environment and lose all of your work.

Each session lasts for 4 hours by default, although you can extend a session to run longer by pressing the start button to reset your session timer. At the end of each session, any resources you created will persist. However, we automatically shut EC2 instances down. Other resources, such as RDS instances, keep running. Keep in mind that we do not stop some AWS features, so they can still incur charges between sessions. For example, an Elastic Load Balancer or a NAT. You may wish to delete those types of resources and recreate them as needed to test your work during a session. You will have access to this environment for the duration of the class that you are enrolled in. When the class ends, your access to the learner lab will also end.

63 You are currently logged into Student View

Resetting the test student will clear all history for this student, allowing you to view the course as a brand new student.

Reset Student Leave Student View

Step 8. Start Lab

The screenshot shows the AWS Academy Learner Lab interface. The browser address bar displays `awsacademy.instructure.com/courses/105641/modules/items/9867953`. The page title is "Launch AWS Academy Learner Lab". A red box highlights the "Start Lab" button in the top right corner. The main content area features a terminal window with the prompt `eee_W_3963177@runweb156704:~$` and a large "119x40" watermark. The right sidebar contains a "Learner Lab" section with a list of links: "Environment Overview", "Environment Navigation", "Access the AWS Management Console", "Region restriction", "Service usage and other restrictions", "Using the terminal in the browser", "Running AWS CLI commands", "Using the AWS SDK for Python", "Preserving your budget", "Accessing EC2 Instances", "SSH Access to EC2 Instances", "SSH Access from Windows", and "SSH Access from a Mac". The footer indicates the user is logged into Student View and provides a "Reset Student" button.

Step 9. Wait AWS GREEN

The screenshot shows the AWS Academy Learner Lab interface. The browser address bar displays `awsacademy.instructure.com/courses/105641/modules/items/9867953`. The page title is "Launch AWS Academy Learner Lab". In the top right corner, there is a status indicator "AWS" with a yellow dot, followed by the text "Wait until GREEN" in red. A blue box highlights the "Start Lab" button. The main content area features a large blue "V" logo with an orange circular arrow around it. On the right side, there is a "Learner Lab" section with a dropdown menu set to "EN-US" and a list of links: [Environment Overview](#), [Environment Navigation](#), [Access the AWS Management Console](#), [Region restriction](#), [Service usage and other restrictions](#), [Using the terminal in the browser](#), [Running AWS CLI commands](#), [Using the AWS SDK for Python](#), [Preserving your budget](#), [Accessing EC2 Instances](#), [SSH Access to EC2 Instances](#), and [SSH Access from Windows](#). The bottom of the page has a purple bar with the text "You are currently logged into Student View", a message "Resetting the test student will clear all history for this student, allowing you to view the course as a brand new student.", and two buttons: "Reset Student" and "Leave Student View".

Step 10. Access AWS Account

The image shows two overlapping browser windows. The background window is the AWS Academy interface at `awsacademy.instructure.com/courses/105641/modules/items/9867953`. It features a sidebar with navigation links like Account, Dashboard, Courses, Calendar, Inbox, History, and Help. The main content area shows a module titled 'Launch AWS Academy Learner Lab' with a green 'AWS' button highlighted by a red box and labeled 'Select this AWS GREEN button to access AWS account'. Below this is a terminal window with the command `eee_w_3963177@runweb156704:~$`. A purple banner at the bottom states 'You are currently logged into Student View' and 'Resetting the test student will clear all history for this student, allowing view the course as a brand new student.'

The foreground window is the AWS Management Console at `us-east-1.console.aws.amazon.com/console/home?region=us-east-1#`. The top navigation bar shows the region 'United States (N. Virginia)' and the user 'voclabs/user3736378=Test_Student @ 7721-8531-4455', both highlighted with red boxes. A yellow text overlay reads 'Important: Always screenshot with YOUR STUDENT ID'. The console displays sections for 'Recently visited' services (none listed), 'Applications' (none listed), 'Welcome to AWS' (with a 'Getting started with AWS' link), 'AWS Health' (showing 0 open issues and 0 scheduled changes), and 'Cost and usage' (showing current month costs of \$0.00 and forecasted month end costs of \$0.03).

Requirements

- Screenshot must contains your student ID!
- Please stop (not terminating) EC2 to save cost when not using
- Please inform lecture/professor to check your project when it is running
- New Budget is 50\$, please pay attention
